To Whom It May Concern,

Letter of Assessment

Atlassian Pty Ltd (Atlassian) engaged elttam to perform a security assessment titled 2024 Confluence DC Security Assessment (EC-ATL-2025-Confluence-DC) which was conducted over a total of 50 days between the dates 09-Dec-2024 to 06-Feb-2025.

The scope of this assessment encompassed a review of Confluence DC version 9.2 LTS, along with its iOS (v2.1.0.1) and Android (v3.0.4) mobile applications.

The engagement with Atlassian began with a briefing and walk-through. Subsequently, a dedicated team of 3 experienced security consultants conducted the security assessment over the specified period.

The testing team had access to internal documentation, development guides, relevant repositories and got support from engineers. The assessment methodology used a code-assisted (white-box) approach and both automated and manual penetration testing techniques were used.

A final report, detailing technical issues and offering remediation advice, was then provided to Atlassian Pty Ltd.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our clients secure their most important assets.

Sincerely,

Matt Jones
Director
